Select sort by Town\_City. This will give you the alphabetical listing from A-Z of the suburb.

Just be aware that some of the suburb/town may have the same name in a different state.

The screenshot shows an Excel spreadsheet with a list of charities. A 'Sort' dialog box is open, allowing the user to sort the data. The 'Sort by' dropdown is set to 'Town\_City', and the 'Sort On' dropdown is set to 'Cell Values'. The 'Order' dropdown is set to 'A to Z'. The 'Town\_City' option in the 'Sort by' list is circled in red.

Scroll to the suburb town and count the number of charities registered in that suburb. Add this to the other suburbs in the Electoral Division. This will give you the total number of charities registered with ACNC in that Electoral Division. If you are keen, you can do the same for the Upper House. But that is a bigger area and more suburbs to count.

Thank you for all you do. I wish you, your charity and those you support all the best for the year ahead.
